Dear Francesca,

I send you my sincerest greetings and wishes and hope you and your families are safe and well during this current situation.

In light of this global health emergency, the Barcelona Bar Association has decided to organise some "International Legal Webinars" on-line for our members, in order to offer them pre-recorded training sessions.

We were considering the possibility that representatives from our International Twining Bars could also participate in this Webinars by presenting a short exposition of the impact of the Corona virus crisis in current topics of interest such as:

- Labour rights
- Consumers rights
- Contractual obligations and liability, with special focus on lease agreements and mortgages
- Situation of the public tenders and the performance of public contracts
- Import of goods
- Joint custody of children
- Current situation in the Courts
- any other topic that you may consider...

The point would be to explain the current measures that your country has adopted in any of the mentioned topics after the health crisis started, giving as well an European vision.

Therefore, we would be very delighted if your Bar would participate in this project.

In the case of a positive reply, we will proceed as follows:

- We will need that you connect us with the representative of your Bar who could make the presentation.

- He/she would have to send us a video presentation (15 minutes max). We would previously send the speaker all the technical practicalities.

- In case of questions from the audience, we would have a second session for the questions. The questions will be send in advance and the speaker could make another short video to respond them.

In case that you would like to offer the same to your members, we would be more than happy to proceed in the same way.

We are looking forward to initiate this mutual collaboration in benefit of all our Bar members.

Thank you very much,

With my best wishes.
